EXPERIENCE

Recorem, Remote: MERN stack developer

July 2022 – Aug 2023

- Improved the performance of the recorem.com app by memoizing and lazy loading the react components.
- Developed features and components for the main application, marketing site, and resume search app using Ant Design, Chakra UI, ReactJS, NextJS, Redux toolkit, and styled-components.
- Implemented the GIF feature for chats and UI improvement for better user interaction.
- Utilized version control systems like Git for code management and collaborated with team members through code reviews and pull requests.

Technologies: React.js, Redux-toolkit, Next.js, Typescript, Ant Design, Styled-components, Chakra-UI

Traviyo, Noida, UP: MERN Stack developer

Oct 2021 – May 2022

- Build an Itinerary booking app to easily plan and get an overview of the trip.
- Worked with clients and build different types of websites (kronicle.in, parents holiday.com, pacifictradelinks.com etc.)
- Resolved issues and bugs by investigating and troubleshooting code, and provided timely solutions

Technologies: Reactjs, JavaScript, Typescript, HTML, CSS, Bootstrap, JQuery

PROJECTS

Ecommerce App

May 2022 – July 2022

User-friendly interface, extensive product catalog and secure payment system offering customers a seamless and enjoyable online shopping experience.

- Developed a complete E-commerce application implemented using MERN Stack that allows users to shop online for items.
- Integrated Stripe for payment, **JWT** token for security and authentication.
- Incorporated **Nodemailer** and **CORS** for emailing and Cross-Origin Security.
- Built **RESTful APIs** and implemented server-side logic using Node.js, ExpressJS, MongoDB Database, and integrated third-party APIs.

BlogMini App

April 2022

A full-stack blogging app where users can register and login and create blogs.

- Developed a smooth responsive UI where users can create blogs and can view and like other blogs.
- Built **RESTful API** and implemented server-side logic using **Nodejs**, **ExpressJs**, **MongoDB**, and **Mongoose**.
- Used **JWT** for security and authentication.

Tripworld App

November 2021

Developed a Travel booking Application using ReactJS that allows users to query for travel packages online.

- Developed a SPA with intuitive UI, Comprehensive travel information and interactive features enabling users to easily plan, book and explore their dream destinations all in one place..
